Dietary supplement on the basis of zinc enriched with biosignals of selected substances.

### **Menopausine<sup>+</sup>**

#### **Contents: 30 ml**

Dietary supplement on the basis of zinc enriched with menop\* biosignals of selected substances related to easing the climacteric problems.

Zinc has a role in normal fertility and reproduction, it contributes to the maintenance of normal bones, hair, nails and skin, it has a role in the cognitive function, and it contributes to the normal function of the immune system.

Biosignals are imprinted with the electromagnetic method MOLIT.

\* Mark for the biosignals related to restoring hormonal balance.

**Directions:** recommended daily intake is 24 drops (1.32 ml). 12 drops in the morning on an empty stomach and 12 drops in the late afternoon, before dinner. Maximum daily allowance is 50 drops (2.75 ml).

**Shake before use.** 5 minutes before taking the drops, and right after that do not brush your teeth with a toothpaste, and do not consume any food or liquid except water. When you take the drops, swill them around in your mouth for 1 to 2 minutes before swallowing.

The dietary supplement is not a substitute for varied and balanced diet.

Do not exceed the stated maximum daily allowance.

Keep out of reach of children.

Store in a dark place away from sources of electromagnetic radiation (TV, computer, mobile phone, etc.), and between 1 °C and 25 °C.

**Best before:** 01/2024
